Together we're transforming emergency care, for life.

iN/X Integrated Patient Transport & Loading System™

Everyday operations in EMS — such as lifting and lowering, loading and unloading — increase the risk of personal injury to medics, often resulting in lost work days and careers.

The iN/X system was designed, utilizing extensive feedback from EMS professionals, to effectively eliminate lifting and protect you from the risk of injury at every step of a call, making your job easier while enhancing delivery of care.

We can overcome any obstacle.

We can stop lifting.

We can make today better.
Integrated Patient Transport & Loading System

The work you do every day not only saves lives, it transforms them. You continuously sacrifice your back because your patient's safety matters more than your own. We at Ferno are quite frankly, inspired.

Level Patient Surface
Level at all heights to enhance procedural care.

Manual Back-Up System
Complete operation in the event of power loss.

Programmable Load Height
Adjusts to match your ambulance floor height.

Dual Powered Actuators
Maximize tip stability and lift patient loads up to 700lbs.

Telescoping Foot-End Handles
Increase patient foot clearance during operation.

Simple One-Touch Operation
Helps you stay focused on patient care.

Integrated Lighting System
Continuous and Flashing modes both allow you to see and be seen in dark and hazardous conditions.

In-Fastner Shut Off
Prevents accidental operation in ambulance.

Integrated Charging System (ICS)
Eliminate battery management.

Integrated Patient Transport & Loading System
TM

The work you do every day not only saves lives, it transforms them. You continuously sacrifice your back because your patient's safety matters more than your own. We at Ferno are quite frankly, inspired.

Listening to and working together with medics, we built the ONLY integrated patient transport and loading system PROVEN TO EFFECTIVELY ELIMINATE LIFTING. Now you can keep your focus right where you want it to be: SAVING LIVES.

Integrated Charging System (ICS)
Eliminate battery management.

In-Fastner Shut Off
Prevents accidental operation in ambulance.

Level Patient Surface
Level at all heights to enhance procedural care.

Stop Lifting
iNtegrated Loading System allows you to stop lifting and to load and unload with ease.

Integrated Lighting System
Continuous and Flashing modes both allow you to see and be seen in dark and hazardous conditions.

Innovation
Inspired
by you.

Sealed Memory Foam Pad
Optimizes patient comfort during long transports.

Automatic High Speed Extend and Retract
Reduces load and unload time.

Universal Accessory Rail
Attach accessories in any position.

Telescoping Load Frame
Maximize maneuverability in tight spaces.

Industry Exclusive Restraints
Keep patients secure in the event of an accident.

Adjustable Arm Rests
Provide enhanced patient comfort, facilitate IV starts, and secure combative patients.

The iNjX was Designed to PROTECT You and Your Patients.
Up and Over OBSTACLES with Confidence.
iNdependent X-Frame Design allows you to navigate obstacles with your thumb and not your back.

SAFETY and Flexibility for Any Situation.
The iNjX supports an infinite number of positions allowing you to overcome obstacles in diverse environments, and provide unique clinical care in multiple patient comfort positions.

CHAIR Position.
Facilitates transfer of seated patients and support of COPD patients. The chair position footprint fits most dialysis scales.
**ACCESSORY SYSTEM**

- **PacRac+ Equipment Mount**
  Provides support to any patient monitor. The pivoting side-supports allow for patient transfers without removing the PacRac+.

- **SX Surface Extender**
  Provides added comfort and security for any patient of any size.

- **Three Stage IV Pole**
  Allows you to quickly place an IV bag anywhere around the patient.

- **Equipment Hook**
  Hang your monitor on the backrest and let the iN/X carry the weight for you.

- **Integrated O2 Holder**
  Securely attaches an oxygen cylinder to the iN/X.

- **Universal Accessory Rail**
  Allows you to move and attach accessories anywhere along the side of the iN/X.

- **Storage Net**
  Provides additional storage for added convenience.
