

O₂ Class Flowmeters

Spiracle Technology is pleased to offer its new O₂ Class Flowmeter. This traditional precision thorpe tube style flowmeter is a perfect economical addition to any medical service where metered oxygen is needed.

The O₂ Class Flowmeter's unique cylinder shaped polycarbonate tube and nickel plated brass base gives the O₂ Class Flowmeter a refined professional look. The white background and large font aid in making a quick and accurate flow setting by the operator. The O₂ Class Flowmeter is designed with a stainless steel ball float and specialized flow selection knob. The stylish contoured knob allows for quick flow selections when wearing medical gloves, while the Agion® material that the knob is made from helps to keep the surface free of bacteria, mold, and fungus. Agion® provides engineered antimicrobials composed of naturally occurring silver ions and zeolite that inhibits the growth of odor causing microbacteria.

Maintenance costs are minimized with a readjustable needle valve assembly. Easy-to-maintain and clean with cold chemical solutions, the O₂ Class Flowmeter will provide years of reliable service. The O₂ Class Flowmeter is built for accurate and dependable service and is a perfect addition to hospitals, EMS agencies, aero medical or home care services.

10 Good Reasons To Use Spiracle Technology Flowmeters

Affordably Priced - Affordable high quality craftsmanship will provide years of dependable and reliable service.

Precision Flow - The accuracy of the flowmeter is plus or minus 10% of the reading.

Standard DISS Outlet - The brass, nickel - plated DISS outlet allows precise connection using standard DISS or barb fittings.

Durable - With the high impact resistant Polycarbonate cylinder and the nickel plated copper the O_x Class Flowmeter is made to last.

Maintenance - The flowmeter is made with minimal parts making the unit extremely easy to maintain.

Compact - The O₂ Class Flowmeter is small and light weight making it ideal for almost any space.

Easy to Read - The white background and sharply printed scale markings provide an easy to read scale for the operator.

Easy to Use - Minimal parts and simplistic layout make the O₂ Class Flowmeter quick and easy to use.

Agion® Knob - Agion has some of the industries leading antimicrobial protection technology. This antimicrobial treated device will debar the growth of odor promoting bacteria, mold, mildew, and fungi and will continue to do so throughout the lifespan of this product.

1 Year Warranty - 1 year warranty on manufactured defects provides confidence in quality craftsmanship and dependable service.

Additional Flowmeters Offered by Spiracle Technology

ORO₂™ FCV Model 900*
12 flow settings- Off, 1/4, 1/2, 1, 2, 3, 4, 6, 8, 10, 15, 25 LPM. Flow accuracy +/- 10% on 1LPM+. DISS Male outlet.

ORO₂™ FCV Model 901*
Same as Model #900 except with stainless steel barb outlet

*See Spiracle Flow Control Valve sales spec sheet for further details and specifications

How To Specify & Order Spiracle Technology O₂ Class Flowmeters

Model T21EC15 O₂ Class Flowmeter

0 ~ 15 liters per minute, Inlet -1/8 NPT female, Outlet - DISS male fitting.

Accessories

Reusable Humidifiers

Disposable Humidifiers

Quick Connect Fittings

* All Items Listed are Special Order. Contact Spiracle for Price and Availability. Minimum Order Quantities May Apply

Specifications (p/n: T21EC15)

- Description:** Back pressure compensated flowmeter for dispensing medical grade oxygen.
- Flow Settings:** 0 ~ 15 liters per minute w/ 65 LPM flush flow.
- Flow Accuracy:** Plus or minus 10% of reading.
- Inlet pressure:** Unit calibrated @ 50psig. Max inlet 100psig
- Materials:** Polycarbonate, Brass Nickel Plated, stainless steel, viton
- Weight:** 6.64 oz/188gm
- Increments:** 0 - 6 LPM in 1/2 LPM increments, 6 - 15 LPM in 1 LPM increments
- Flush Flow Rate:** 65 LPM (depending on supply flow)
- PTO Flow Rate:** Over 100 LPM (depending on supply flow)

Outlet - DISS Male with DISS x BARB Fitting

Inlet - 1/8 NPT Female Center Back Mount

CAUTION: Federal law restricts this device to sale by or on the order of a physician.
